# UHF MIRCOPHONE MOUNT RIGHT-HAND SIDE

---

TLR744010

SUITED TO:

**FORD RANGER/EVEREST/  
RANGER RAPTOR- NEXT GEN SERIES**

## PRE-INSTALLATION

Read through this installation guide before proceeding.

Fitting time is approx. 30 minutes.

Allen key set, 12 mm drill bit, screwdriver. Trim removal tool, Masking tape

### FITTING KIT

QUANTITY	PART
1	TLR744010 –Mount

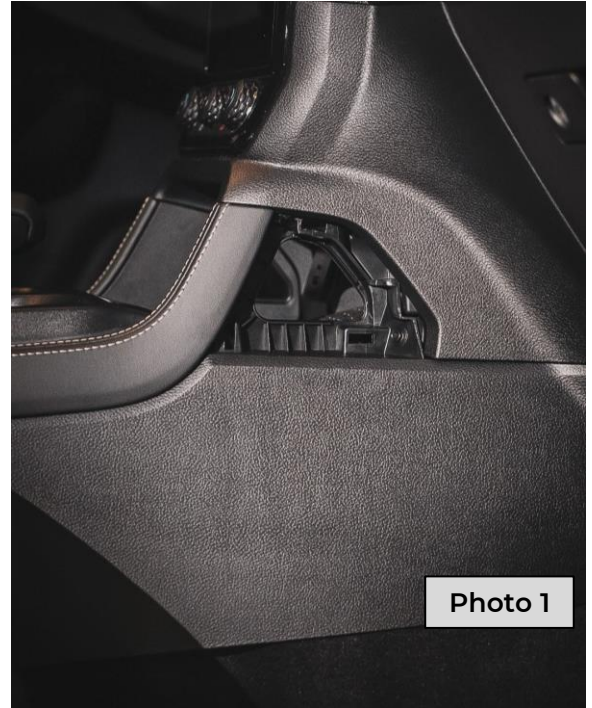

### NOTE:

This UHF Microphone Mounting Bracket is designed to mount to the Right-Hand side of the center console area. There are mounting holes to accommodate most UHF base plates, along with a 28 x 18mm hole to suit Toyota short switches EG. XRS-RJ45W1 (RJ45 Pass-Through Adapter – Type 1).

## FITTING INSTRUCTIONS

1. Remove the Small Triangle shape trim piece as shown in *Photo 1*. There are 3 clips holding this in place, to remove simply lever or pull the piece of trim out from the console to release.
2. Install the UHF handpiece mount and RJ45 pass-through into the TLR Products mount. Refer to *Photo* on previous page for example.
3. Carefully use a step drill to create a hole large enough to pass the RJ45 connector through in the bottom surface of the opening shown in *Photo 2*.
4. Route the RJ45 cable up behind the plastic side panel of the centre console and out of the hole previously drilled, connect the cable to the pass-through. See *photo 2*.
5. Feed the excess cable back through the hole and firmly push the TLR Products mount into position until all 3 clips are securely in place to finalise installation
